\* An annual fee calculated for a full-time study load is the fee rate per unit for a program multiplied by the usual number of units undertaken in an academic year. For most programs this is 16#. The fee for less than a standard full-time study load in a year will be proportionately lower.

Units (#) represent the value of individual [courses](#) which contribute to the total unit requirement of an academic program (most courses are worth #2). To calculate your tuition fee for a specific course, multiply your program's tuition fee rate per unit by unit value of the course.

\*\* The indicative annual fee for the Associate Degree in Business is calculated based on three full-time trimesters [24 units (24#)] at UQ College, commencing Trimester 1.

\*\*\* As fees are indexed annually, it is not possible to calculate precisely the total cost of a program in advance. The indicative total program fee, for a program commenced in 2018, has been calculated using an annual indexation rate of six percent, and assumes a student completes the minimum required units in the standard program duration.
